Subject: FW: Xcel Energy Prairie Island Nuclear (MN0004006) - DMR Data Request and concerns about Data flow to ICIS
Date: Wednesday, February 07, 2018 12:51:00 PM

Hi James - this is what I wanted to talk to you about yesterday.

Ex. 5 DP / Ex. 7(A)

Your thoughts? I'll give you a call about 1:30 if that's ok.

Jenny

Subject: FW: Xcel Energy Prairie Island Nuclear (MN0004006) - DMR Data Request

Jenny,

Tami provide the DMR data really quickly for Xcel, which is super helpful. FYI, see her response about the ICIS and the state data browser.

Subject: RE: Xcel Energy Prairie Island Nuclear (MN0004006) - DMR Data Request

Jennifer~

Good Afternoon! Thank you so much for the call & email. I can certainly help you with the information you are looking for! Attached to this email is an excel file of all DMR data for MN0004006 from July 2015 -- present. Unfortunately, we don't manage those stations in ICIS, just the effluent and surface water stations. Minnesota also has a data browser that publishes all the submitted DMR data for all facilities. The data browser is located here:

<https://www.pca.state.mn.us/data/wastewater-data-browser>

I don't think that environment gets up dated though, more than a couple times a year, so if you ever need access to more DMR data and can't find it in ICIS, feel free to give me a call or shoot me an email and I can help you out with that. Please let me know if you have any questions about anything or need further assistance!

Thanks so much, have a great day!

Reasonable effort has been made to ensure the accuracy of the data on which this analysis is based. However, the Minnesota Pollution Control Agency does not warrant the accuracy, completeness, or suitability for any implied uses of these data. For more information, see <https://www.pca.state.mn.us/mpca-website-policies-and-disclaimers>.

Subject: Xcel Energy Prairie Island Nuclear (MN0004006) - DMR Data Request

Hi Tami,

As I mentioned in my phone message and as Jenny mentioned in her email, I'm hoping to get DMR data from MPCA for Xcel Energy -- Prairie Island Nuclear (MN0004006) to complete a review of compliance info. ICIS doesn't seem to contain the internal wastestreams on this permit (prefix "WS")...perhaps a database issue. Would you mind sending the following:

- DMR reported data for the following internal monitoring stations: WS001, WS002, WS003, WS004, WS005, WS006, WS007, WS008, WS009; and
- Time period: since July 1, 2015 (the issuance of the current permit) to present.

If it's easier to send all DMR data for that time period that includes all of the outfalls/monitoring stations, feel free to send that. I'm pretty adept at using that handy Excel filter function☺.

Thanks again and feel free to call or email if you have any questions.

Best,

Jennifer Welch
